Subject: Recognition of Atascadero as a Rural Community
To:

Mari and Rodney Linch

Atascadero CA. 93422

I am writing to bring attention to the classification of Atascadero as an urban area/community. Atascadero, with its distinct rural community should continue to be recognized as a rural community. Atascadero's unique charm lies in its picturesque landscapes, close-knit neighborhoods, and agricultural heritage.

Residents of Atascadero take great pride in the rural lifestyle that our community provides. As a long-standing member of this community, I am concerned that an inaccurate classification may lead to decisions that do not align with the genuine essence of Atascadero. I kindly request the State Water Resource Control Board to review and reassess the classification of Atascadero, taking into consideration the rural character that defines our community. This recognition will not only reflect the true identity of Atascadero but also ensure that decisions regarding water resource management align with the specific needs and values of our rural community. I appreciate your time and consideration of this matter. I am confident that, with your attention, we can work towards a more accurate representation of Atascadero within the classification system. Thank you for your dedication to maintaining the integrity of our communities and their unique identities.

Sincerely,
Major and Mrs. Mari Linch
